WBCS PRELIMS TEST SERIES

THE 25-TEST ADVANTAGE

Because Success in WBCS Prelims
is Not Built on Guesswork

#WHAT THIS YEAR'S PAPER TOLD US

THE WBCS PRELIMS HAS CHANGED. YOUR STRATEGY MUST TOO.

This year's WBCS Prelims made one thing clear: the paper has changed. It rewards students who keep up with the news and stay calm under pressure — not those who only finished a syllabus.

Current affairs were fresh and tough. The paper asked about events from this very year — like the SHANTI Act, 2025 and the UN theme for 2026. Old notes won't help.

The paper rewarded students who could:

- ▶ Stay current — fresh laws, schemes and world news from this year.
- ▶ Look beyond India — GK from world affairs and global events.
- ▶ Read carefully — statement and match-the-following traps.
- ▶ Think, not just memorise — science, maths and reasoning need working out.
- ▶ Know Bengal well — easy marks in WB geography, history and institutions.

A wider, fresher, smarter paper. Random practice won't crack it.

নির্ণয় 2025 is built for exactly this exam.

#THE NIRNAY ARCHITECTURE

25 Tests. One mission: Prelims mastery.

14	Sectional Tests	One head at a time — deep subject mastery
2	Integrated Tests	Cross-subject fusion papers
1	PYQ-Based Test	WBPSA previous-year pattern decoding
1	CA + GK Test	Ultra-recent current affairs + static linkage
5	Full-Length Tests	Complete exam simulations at full weighting
2	Open Mocks	Competitive ranking — real rank, real pressure

CREATING CIVIL SERVANTS FOR THE NATION

#WHY NIRNAY IS DIFFERENT

NOT JUST A TEST SERIES. A PRELIMS DECISION-MAKING SYSTEM.

1 WBPSC Pattern Intelligence

We continuously track how WBCS sets its paper — the surge in ultra-recent current affairs, statement-based formats, and the rising reasoning load — so your preparation evolves with the exam.

2 Elimination Technique Training

Most aspirants lose marks from weak elimination. We train statement-linkage analysis, extreme-word detection, probability-based elimination and contradiction spotting.

3 Accuracy & Attempt Diagnostics

After every test you see your ideal attempt range, negative-marking control, weak subject clusters and accuracy trends — measured, not guessed.

4 Advanced Error Mapping

You learn why a mistake happened, where conceptual confusion sits, and which areas repeatedly leak marks — so the same error never costs you twice.

5 Prelims Temperament Conditioning

We condition you to stay composed across a long paper, decide under uncertainty and avoid the panic-errors that sink good aspirants.

THE APTI PLUS EDGE

Latest WBCS Pattern
Based Questions
